Jobless Rate Slips Upward

Despite New Highs In Industrial Production

WASHINGTON (AP) — The nation's jobless rate edged upward last month despite new highs in employment and industrial production.

Thus, the economy continued to present a bitterly paradoxical picture: Business growing stronger, more Americans at work than ever before and joblessness persistently and stubbornly high.

Reds Down Helicopter In Korea

No announcement Of Fate of Two American Pilots

SEOUL, South Korea (AP) — Communist North Korea said its ground forces fired on and forced down a U.S. Army helicopter today, just north of the demilitarized zone between North and South Korea.

The Reds said the plane was damaged badly.

There was no announcement of the fate of the two American pilots, Capt. Ben Weakley Stutts and Capt. Charleson W. Voltz.

The disclosure that the helicopter was brought down by gunfire was made by the senior North Korean delegate to the Military Armistice Commission.

The U.N. Command had told the commission earlier that the helicopter made an emergency landing on the north side of the Han River estuary, in Red territory 17 miles northwest of Seoul. The U.N. Command requested that the Communists return the pilots and the aircraft immediately.

The Communist delegate called the flight an intentional breach of the armistice agreement but evaded a direct reply to the request for return of the men and the helicopter. In a similar case in 1958 an American pilot was returned in 11 days.

A U.N. spokesman said the officers were making a routine check of identification markers along the south side of the demilitarized zone the 1953 armistice established to separate the two Koreas.

The spokesman said Stutts and Voltz were experienced pilots who were familiar with the area.

U.S. Marine Maj. Gen. George H. Cloud, the senior U.N. member of the Mixed Armistice Commission, made the request for the return of the men and the helicopter at a commission meeting at Panmunjom.

Cloud replied that in the past the U.N. command has admitted frankly any violation by its forces of the armistice agreement. He said the command would take appropriate measures to punish the two pilots as specified by the armistice agreement if it was proved they had erred.

Rob Station Attendant East of City

August Egner, 37, 2004 South Lamine, station attendant at the Brown's Service Station No. 4 on Highway 50 east of Sedalia, was robbed of between \$35 and \$50 after being slugged in the head Thursday night. The robbery took place about 11:25 o'clock on the west side of the station building.

Egner was struck on the forehead at the hairline by a heavy instrument which caused a laceration which took six stitches to close. Egner, regaining his feet, went to the phone and notified James W. Brown and Mrs. Brown, owners of the station, who reside a short distance from the station. They in turn notified Sheriff Emmett Fairfax.

Mrs. Brown then took Egner to the Bothwell Hospital where Dr. K. L. Holdren, rendered medical attention. He accompanied Mrs. Brown back to the station where he talked with Sheriff Fairfax and Deputy Sheriff Jack Couts.

Sheriff Fairfax said Egner gave this account of the incident. An old model car was believed to have been used by the robbers, as such a car with two women had pulled in on the drive of the station and a man was driving. The two women went to the rest room and he did not see the car.

A JFK Victory

Pass Feed Grain Control Measure

WASHINGTON (AP) — Senate Democrats have given President Kennedy a major farm program victory, passing the administration's feed grains control bill before a nationwide wheat controls referendum comes up for a vote.

Seventeen Republican amendments designed to delay final passage of the bill were beaten back before the Senate stamped a 45-35 vote of approval Thursday night on continuing voluntary controls over corn and livestock feed grains for the next two years.

In a last-minute move of desperation, the Republicans tied their hopes for delay on a typographical error; but the Senate voted 43 to 34 to have its clerk make the correction, as usual.

Since no change was made in the version already passed by the House, the bill goes to the President on Monday—for his expected signing into law.

After the vote, he issued a statement saying the measure "gives the farmer freedom to farm at a profit—freedom to plant his allotted acres in accordance with his best judgment—freedom to overplant wheat in good years and underplant in bad years without penalty—and freedom from disastrously low prices."

Kennedy said the legislation represents an impressive victory for the American farmer and it was enacted "over the objection of those seeking to commit him to low prices and a declining income."

In addition, the President said, passage of the legislation gives farmers an intelligent basis on which to vote in the nationwide wheat referendum Tuesday.

Secretary of Agriculture Orville Freeman had urged prompt congressional action on the feed grains measure as a method of increasing votes for the strict new program for controlling wheat production.

The feed grains bill would enable wheat farmers to plant corn, grain sorghums, barley and other feed grains on acreage taken from wheat. By the same token, feed grain growers would be permitted to plant wheat on land they idled under the bill.

Bids To Open For Security Facilities

The U. S. Army, Corps of Engineers Ballistic Missile Construction Office, with headquarters at Torrance, Calif., plans to issue invitation for bids for construction of security surveillance facilities for Whiteman AFB.

Bids will open about May 23. The requirement is to construct three reinforced concrete antenna pedestals with pipe and wire mesh screens for each and interconnecting underground steel electrical conduit system. The work also includes the providing of lightning protection and a flood-lighting system and the modification and stiffening of designated panels of existing security fence.

The approximate value of the proposed construction is \$3,000,000.

Plans and specifications will be issued by the U. S. Army Engineer District, Los Angeles. Plans request cards should be mailed to P.O. Box 17277, Foy Station, Los Angeles, Calif.

Officials Show Confidence After Control System Fails

Uneasy Quiet

Relax Vigil In Race Situation

BIRMINGHAM, Ala. (AP) — The federal government shows signs of relaxing its vigil in Birmingham's racial situation and Atty. Gen. Robert F. Kennedy's adviser on civil rights has returned to Washington.

Sheriff Melvin Bailey said, However, the authorities are apprehensive about the weekend. A 24-hour guard has been posted throughout the area of last week's rioting. About 200 heavily armed state patrolmen and conservation department officers are patrolling a 24-square block area.

"It's an uneasy quiet," Bailey said. "The weekend will cause more concern. It will be a critical period."

Asst. Atty. Gen. Burke Marshall who went back to Washington Thursday, said he has no plans to return to this racially troubled city immediately. He said he believes the situation will be calmed through the cooperation of Birmingham people. Marshall was accompanied by an aide, Ed Guthman.

A deputy attorney general, Joseph Dolan, remained in Birmingham.

About 3,000 riot-trained soldiers are standing at bases in Alabama, where they were ordered by President Kennedy after bloody rioting in Birmingham last weekend.

Secretary of Agriculture Orville Freeman had urged prompt congressional action on the feed grains measure as a method of increasing votes for the strict new program for controlling wheat production.

The feed grains bill would enable wheat farmers to plant corn, grain sorghums, barley and other feed grains on acreage taken from wheat. By the same token, feed grain growers would be permitted to plant wheat on land they idled under the bill.

There were these other developments:

The Alabama Supreme Court heard arguments about which of Birmingham's two city governments should rule and indicated a decision might come within a few days.

A U.S. district court judge ruled that the University of Alabama still is bound by a 1955 order prohibiting discrimination against Negro applicants. Three Negroes are seeking admission to the university, and they contend they were rejected for spring quarter solely on racial grounds.

About 2,000 persons jammed an

auditorium at New York for a rally sponsored by the New York City Central Labor Council in support of the integration drive in Birmingham.

President Kennedy is scheduled to attend the 30th anniversary celebration of the Tennessee Valley Authority at Muscle Shoals, Ala., Saturday. Wallace is among southern governors invited.

If the President and the governors meet, they almost certainly will discuss racial tensions in Birmingham.

Progress on the site activation in the area surrounding Whiteman AFB is continuing ahead of schedule. Installation of the intersite cable has been of particular interest during the past two weeks. Splicing of the cable has been started. The splices are put in at the end of each reel of cable (3,000-6,000 feet), at each highway crossing, and on both sides of each river crossing.

The Osage River has been the scene of two cable crossings in the past ten days. Special "submarine" cable is placed at each river crossing. Dynamite is used to blast the initial trench, which then is cleaned out with a drag line operated from a barge on the river. Once the trench is cleared, the barge is used as a platform from which to lay the cable. Time is very important in this operation, as the river will fill the trench with silt very rapidly. The Conservation Department collects the fish killed by dynamite blast and gives them to charitable institutions.

The cable project is composed of a number of tasks which are accomplished in sequence. Initially, the right of way is cleared and access to the route prepared.

Trenching follows and normally will remain open less than ten days.

Next the cable is placed into the trench with backfilling starting almost immediately.

Final restoration of the soil and fences will be done within 30 days after the cable is laid.

Trenching and cable-laying activities are underway at Flights A, B, C and G, and currently about ten miles of cable is being placed in the ground each day.

Trenching is scheduled to start in Flight D, south of Tipton, and Flight H, surrounding El Dorado.

Cloudburst Dumps Heavy Rain In City

A sudden cloudburst dumped 1.16 inches of rain on Sedalia in approximately 45 minutes Thursday afternoon and many of the city's storm sewers were unable to handle the rapid runoff of surface waters.

Thunder and lightning accompanied the heavy rain which fell between 3 and 3:45 p.m., according to weather records kept at the State Fair Floral Company's greenhouse on South Limit.

In the downtown area, the intersection of Third and Lamine was covered by over a foot of water in the early part of the storm. Several business establishments in the general vicinity, both on Third and north from Third on Lamine, had water lapping into their doors.

The intersection of Fourth and Massachusetts was covered and the water backed up to Fourth and Lamine in the vicinity of the Post Office building. Cars parked on Fourth Street beside the Post Office were noted standing in water up to the middle of their hubs.

Water also reached nearly a foot deep in the 500 block of West Fifth as storm drains in that area proved inadequate.

Drainage outlets in the railroad underpass on East Broadway near Smith-Cotton High School couldn't handle the heavy runoff either. City street and alley workers were called on to direct the rerouting of traffic around the underpass for approximately an hour.

Police, however, reported no automobile accidents during the thunderstorm. Many motorists caught in the storm found the

Cooper Had Two Proven Methods of Re-entering

CAPE CANAVERAL, Fla. (AP) — Project Mercury officials had confidence in astronaut Gordon Cooper's ability as a pilot and were not concerned about his safety when his spacecraft's automatic control system failed, Flight Director Chris Kraft reported today.

"Gordo had been performing well throughout the flight and he was in very good shape," Kraft said. "Even without the automatic system, he had two proven methods of performing the retrofire maneuver and re-entering the atmosphere — the fly by wire and manual systems."

On fly by wire, the astronaut manually steers the vehicle by using the small one-pound thrust jets of the automatic system. The manual system has larger six-pound and 24-pound thrust jets for making more pronounced changes.

Kraft outlined the decisions made at Mercury Control Center here when Cooper first reported the possibility of trouble after 29 hours 40 minutes of flight.

"During the 19th orbit over Hawaii," Kraft said, "he reported changing the panel light from bright to dim. Between that report and one made seconds later, he said he had an .05G light."

This light is designed to flash on when it detects the first indication of gravity forces—1-20th of a G—when the capsule re-enters the atmosphere after the reverse rockets have fired and slowed the vehicle.

"With the light on," Kraft said, "you have to assume the capsule is in .05G mode in re-entry and that all the automatic systems up to that time, including firing of the retrorockets had been locked in."

He said quick analysis showed the capsule was not re-entering due to orbit deterioration because its speed and course were maintained.

Kraft said ground stations over which Cooper passed were instructed to give him several control tests to determine if all phases of the attitude system had indeed been wiped out up to the point of .05G or whether it was merely a mechanical failure in the light.

These involved gyroscope tests and extensive workouts with the automatic system.

"We told John Glenn on the tracking ship Coastal Sentry to go to automatic and see if the spacecraft would start an automatic 10-degree roll," Kraft reported. "This roll starts after the buildup of gravity forces during re-entry. Its purpose is to damp out re-entry oscillations."

"Cooper reported to Glenn that he did get the roll. That was on the 20th orbit."

The admittance was accompanied by relief that he had made it down safely after the worry when technical failure in the capsule forced him to drive the thing down himself.

Millions of Europeans shared the tension-crowded moments. On television hookups via the Telstar 2 and relay satellites they heard Mercury Control's report as Cooper fired his reverse rockets and moved the capsule into its re-entry position.

Across continental Europe local commentators translated the Mercury Control reports as Cooper made his descent.

Indebtedness Is Less Than \$1-Million

Sedalia's bonded indebtedness is less than \$1 million, according to a report furnished by Mayor L. L. Studer. The exact total is \$866,000. This does not take into account the indebtedness of \$455,000 involving the public parking system which is handled separately from other accounts and is labeled "self-supporting."

The indebtedness breakdown follows: Park Improvement Bonds issued in 1947, \$48,000; Public Sewer Bonds issued in 1947, \$238,000; Library Building Bonds issued in 1955, \$25,000; Hospital Bonds issued in 1957, \$210,000; Urban Plan Bonds issued in 1960, \$345,000.

The indebtedness represents 2.88 per cent of the total property valuation for the city which has been set at \$29,600,000 by the assessor. Mayor Studer said he was of the opinion that this represented a "healthy situation for the city of Sedalia."

Referring to the Public Parking System bonds, the mayor said these were revenue bonds and property owners were under no obligation for payment as income from meters paid off the bonds.

Labor Leaders Line Up for Hilary Bush

KANSAS CITY (AP) — Kansas City labor leaders will form a committee to seek the election of Lt. Gov. Hilary Bush, Kansas City Democrat, as governor of Missouri next year.

Hubert Dalton, district official of the United Steelworkers of America, was chosen Thursday night as chairman of the committee.

Mrs. Crumbliss Honored By Faith Baptist

Mrs. Mel Crumbliss was chosen as the "Christian Mother of the Year" at Faith Baptist Church this last Sunday, Mother's Day. She was voted for during the Sunday School period to the qualifications found in Proverbs 31:10-31 which mention specifically God-fearing, charitable, honest husband, loved by family, and industrious. A red-rose corsage was given to Mrs. Crumbliss as well as a newly published book "Through My Kitchen Window." The presentation was made during the morning service.

Mrs. Crumbliss is the wife of A-1c Melvin Crumbliss, 1905 East Seventh, and is the mother of seven children. Five of the children still reside at home ranging in age from one year to 14. They are Becky, Tommy, Linda, Bonnie and Jim respectively. Another son, Lee, lives in New York state and a married daughter, Mrs. Fred Belk makes her home in Ft. Worth, Texas.

Mrs. Crumbliss is the organist of the church as well as teacher of the Adult Women's Class, Mission Secretary, an advisor of the Youth Group, active in the musical department of the church as well as part-time secretary to the pastor. The Crumbliss family have lived in the area since November 1958. Runners-up in the contest were Mrs. John Swisher of 1401 South Park and Mrs. Warren Berkstesser of 1319 South Park.

Other awards were made as follows: the oldest mothers were Mrs. Jessie Brummett, Mrs. Edna Ryan of Green Ridge, Mrs. Rachel Peters; the youngest mothers were Mrs. Clyde Dekker, Mrs. Sharon Koeller, Mrs. Vernon Turner; and the mother with the most children were Mrs. James Stephens, Mrs. Harold Ryan and Mrs. Edwin Homan. All of these ladies received potted plants to commemorate the day.

Rev. Thornton To Speak At Faith Baptist

Rev. Alfred Thornton will occupy the pulpit of the Faith Baptist Church Sunday for both services. Rev. Roger Martin and his family are on vacation in Arizona. Rev. Thornton is the founder and pastor of the Bible Church of Jefferson City, as well as the editor of the monthly publication "The Searchlight." He is native of Texas and is a graduate of Moody Bible Institute, Chicago.

In the morning service the choir will sing "Look To The Lamb Of God" under the direction of Mel Crumbliss, song leader. Mrs. Kenneth Keele and Mrs. Harold Ryan will sing "Where Jesus Is 'Tis Heaven There" just before the message. A song service will precede the evening sermon and the choir will do a special arrangement of "I Will Sing Of My Redeemer." Special music will be provided by a double duo composed of Mrs. Russell Holman, Mrs. Harold Ryan, Mrs. Fred Brummett and Mrs. Kenneth Keele singing "I'm Going Higher Some Day."

The Youth Fellowship will meet after services with Rev. Thornton as guest speaker. Plans are in the final stages for the Annual Youth Banquet to be held this year at the REA Building on Saturday, May 25 at 6:30 p.m. This banquet is for all young people between the ages of 13-21 and those desiring information or reservations may contact Mrs. Mel Crumbliss at TA 6-0691.

At mid-week service Wednesday at 7:30 p.m. the church will resume its study of Ephesians, Chapter 5, which was interrupted by the pastors' absence. Choir practice will follow this service.

Fifty Framed Body Subject For a Sermon

For the morning sermon at East Broadway Christian Church, the Rev. Cleo Gray has chosen the topic, "The Whole Body Fifty Framed Together."

Miss Catherine Garman, at the organ, will play: prelude, "Finlandia" by Sibelius; offertory, "A Quiet Prayer" by Hopkins; postlude, "Festival" by Kohlmann. The choir will sing a special number, "He Lited Me" at the morning worship.

Bible study is at 6:30 p.m. each Sunday. The class is now conducting a study on prayer.

The evening sermon topic will be "Eyes Opened."

LW and LW Class cook-out will be at 6:30 p.m. Saturday, May 18, at Liberty Park.

Slides about Russia were shown to members of the congregation by Mr. and Mrs. Fred Wertz, May 9. They spoke about the Russian way of life.

World News Glimpses

ROME (AP) — Arrangements for the departure of Joseph Cardinal Mindszenty from Communist Hungary may take weeks instead of days, observers now believe.

"The matter is now in the hands of the Vatican," Franziskus Cardinal Koenig of Austria said Thursday night on his arrival in Rome. "I do not think there will be a rapid solution."

Sources in Budapest, where Cardinal Mindszenty has been in self-imposed exile in the U.S. Legation for the last 6½ years, said Wednesday that the Hungarian cardinal probably would be free to go to Rome in a few days.

VIENNA (AP) — Hospital sources said today that the condition of King Saud of Saudi Arabia, under treatment here for a stomach ailment, has deteriorated. But there is no immediate cause for alarm, the sources said.

The sources said the King, 61, may have acute stomach ulcers or even cancer.

The king's doctors refused to comment on his condition.

DAMASCUS, Syria (AP) — Syrian Premier Salah Bitar contends the United States and Britain are teaming with Israel in an attempt to thwart the proposed union of Egypt, Syria and Iraq.

In a statement handed to the American and British ambassadors in Damascus Thursday, Bitar said President Kennedy's recent statements expressing support for the security of all nations in the middle east "were in fact directly aimed at maintaining Zionist aggression."

The premier said his government will "concentrate all its efforts" on strengthening its army against Israel.

JAKARTA, Indonesia (AP) — Some 80,000 Balinese are threatened with famine because of crop losses resulting from the eruption of volcanic Mt. Agung, the Antara news agency reported today.

About 225,000 Balinese lost their farms in the volcanic eruption in March, which killed more than 1,500 people. Distribution of the remaining crops is hampered by road damage and destruction of vehicles which disrupted 60 per cent of the island's land transportation.

Antara said hordes of mice are menacing the crops that remain in the area of the volcano.

Sen. Kennedy's Wife Resting; Had Miscarriage

WASHINGTON (AP) — Mrs. Edward M. Kennedy, wife of the Massachusetts senator, was resting at home today after losing her expected baby by miscarriage.

Joan Bennett Kennedy, 26, suffered the miscarriage on Tuesday, but it was not confirmed until Thursday by the senator's office.

The senator, 30, brother of President Kennedy, and his blonde wife have two other children, Kara, 3, and Edward M. Jr., who will be 2 in September.

Their third child had been expected in late August or early September.

A spokesman for Sen. Kennedy's office said they would have no further comment other than that Mrs. Kennedy was resting very comfortably at her home in Georgetown, a residential section of Washington.

Circuit Court

Lillian N. Krause filed a petition seeking a divorce from Paul Eugene Krause in Circuit Court Thursday. Lamm, Barnett, Crawford and Barnes are her attorneys.

Mrs. Alfred Blum, Blackwater, has been dismissed from St. Joseph's Hospital, Bonnville.

Charge Elmira Man In Hit-Run Death

LAWSON, Mo. (AP) — Joseph R. Crowder, 28, of Elmira, Mo., has been charged in connection with the hit-and-run death of a soldier, Scott Leo Emmert, 20.

Emmett, stationed at the Nike missile base near Lawson, was killed by a car near Elmira the night of May 4 and his body was found the next day. His car had run out of gasoline and he apparently was walking to the Nike base when he was hit.

Highway patrolmen said they traced Crowder's car through paint found on Emmert's clothing.

Back to Moscow After 10-day Tour

MOSCOW (AP) — Cuban Prime Minister Fidel Castro returned to Moscow today from a 10-day tour of the Soviet Union.

Mikhail A. Suslov, secretary of the Soviet Communist Party's central committee, headed a delegation of officials and Cuban diplomats who welcomed Castro.

Mary Ellen Morrow, 709 West Seventh, charged with careless and imprudent driving in connection with an accident, pleaded innocent, but after a hearing was found guilty and fined \$15.

Frank Turner, Kansas City, Kan., charged with disturbing the peace on complaint of Joe Wootery, forfeited a \$25 bond.

Sam Ray, Chillicothe, Mo., charged with parking on Ohio between 2 and 5 a.m., forfeited a \$2 bond.

It is not known how much longer Castro will remain in the Soviet Union.

Ream said the pair was in open pasture when the bolt struck.

Kirk Douglas Risks Tenth Broadway Play In November

By HAL BOYLE

NEW YORK (AP)—A man never quite gets over the dreams of his youth. And if he's a stubborn man, he never quits trying to make them come true.

Film star Kirk Douglas, despite a deceptive dimple in his big square chin, is a very stubborn man indeed.

His motto is: "Never play it safe—take a chance!"

So, after completing his 39th movie, "The List of Adrian Mesmer," a mystery melodrama directed by John Huston, Douglas has decided to live up to his motto.

He's going to take another chance on Broadway, a street where he failed to win fame earlier in his career but which springboarded him to Hollywood and stardom. Douglas plans to open here next November in a drama called "One Flew Over the Cuckoo's Nest."

Why should a man with three Academy Award nominations to his credit shelf all that screen loot, even temporarily, for a risky adventure where he tried nine times before and lost?

"Because I'm nuts," said Kirk frankly. "Because in a sense you can say I'm a failure."

"I never thought of going into the movies when I started out. I wanted to make it on the stage."

"In a sense I'm trying to do what I've wanted to do for a long time. And I felt if I didn't do it now, I'd get too scared."

"This will be my tenth play on Broadway. I have a kind of consistent record of flops except for 'Kiss and Tell.'

"If this one is a flop, I can still say I'm consistent. But if it's a hit, I'll have satisfied the big dream of my life."

Douglas looks back with nostalgia on his youthful years here when he was trying to belt the big town down to his size. He lived in the traditional Greenwich Village garret, worked in a settlement house, carried trays in a restaurant.

His planned furlough from the camera, Kirk hopes, will also provide him a welcome release for a time from the often chafing ordeals that go with film stardom.

"I want to recapture for a

while that simple dream of just being an actor—and forget the big business worries and other nonsense connected with being a movie star.

"The only thing special about anybody is what they are. You can only make peace with yourself by exploring your boundaries—and then learning to function within them."

"But the fear of failure is the greatest deterrent to getting anything done. I don't believe it's really safe to try to play it safe in life—or to let yourself get too set in anything."

Supreme Court Segregation Ruling In 1954

By THE ASSOCIATED PRESS

Friday, May 17, highlights in history:

On this date:

In 1954, the U.S. Supreme Court ruled unanimously that racial segregation in public schools is unconstitutional.

In 1942, the city of Montreal was founded by Paul de Chomeday and a party of 40 colonists.

In 1792, the New York Stock Exchange was organized by 24 brokers for the purpose of fixing commission rates on stocks and bonds.

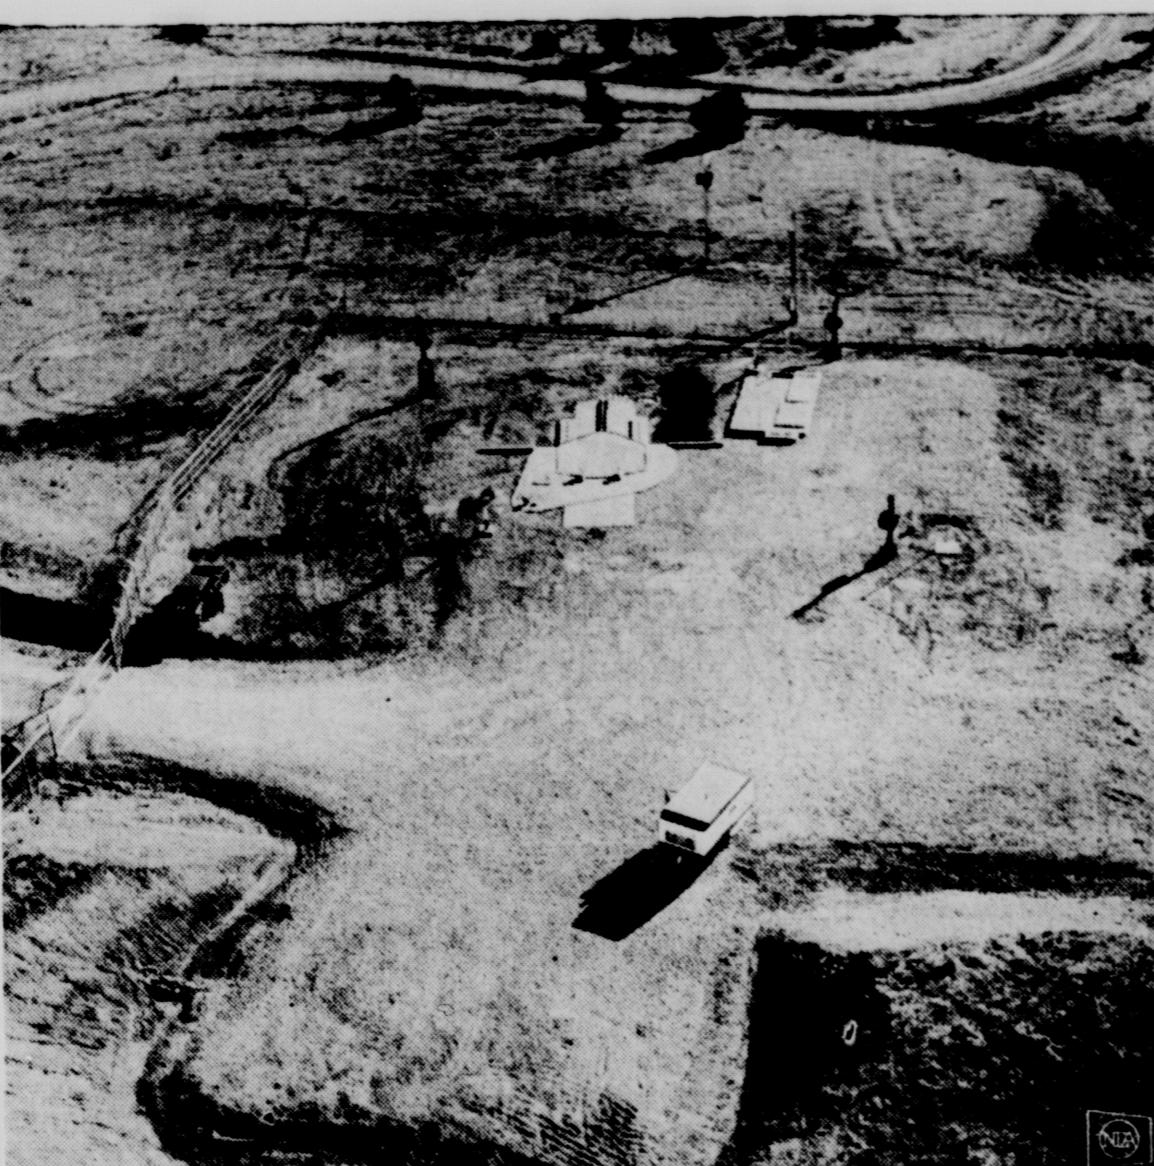

In 1877, the world's first telephone exchange opened in Boston, serving six subscribers as a telephone system by day and a burglar alarm by night.

In 1945, the U.S. Treasury announced plans to mint new dimes bearing the likeness of the late President Franklin D. Roosevelt.

In 1960, the Paris summit meeting collapsed when Soviet Premier Khrushchev demanded a U.S. apology for the flight over the Soviet Union of an American U2 plane.

Ten years ago: The Lebanese Parliament's Foreign Affairs Committee told Secretary of State John Foster Dulles that the U.S. should remove from its mind any possibility of peace with Israel.

Five years ago: The United States launched a Jupiter intermediate range ballistic missile in a test to gain important data on re-entry into the earth's atmosphere.

COCKED AND READY—Peaceful appearance of this Montana field belies its true nature. Beneath the soil lie tons of steel and concrete in which is cradled a Minuteman missile. Should its use ever be required, Minuteman would roar through hatch, center of picture seconds after ignition of its solid fuel. Site, above, is one of 10 which compose the first "flight" of missiles at Malmstrom Air Force Base. Fourteen flights make up a "wing."

Natives of Kentucky Hills Cling to Flood-Hit Homes

By SY RAMSEY

FRANKFORT, Ky. (AP)—Why do they stay in the poverty-stricken, flood-wrecked mountains of Eastern Kentucky?

The typical answer of the natives comes from a gaunt, unemployed miner near Harlan, bailing water out of his shack after recent devastating floods: "Buddy, this is home. There's nowhere else I wanna go."

The census-takers report differently. In 1950 there were 900,000 people in a 32-county area comprising a more populous slice of picturesquely Appalachia. Today there may be 650,000.

Says John Whisman, head of Kentucky's area program office:

L. A. Salmons Ends Career As Rail Engineer

L. A. Salmons, 501 West 18th, a Missouri Pacific engineer, made his last trip Wednesday, with his retirement effective on that day.

It was Sept. 3, 1918, that Salmons went on the road as a fireman for the Missouri Pacific at Jefferson City, and his entire career in railroading was on this one road, most of the time running out of Jefferson City. On July 24, 1942, he was promoted to an engineer, and about four years ago, when his seniority gave him a passenger run out of Sedalia, he and his wife came here to live. They have one son, Bob, who has followed in his dad's footsteps, and is a fireman on the Missouri Pacific. Bob is married and lives in Jefferson City.

Now that he has brought his last train to a stop and climbed for the last time down out of the engine, Salmons thinks that the one main thing he wants to do is rest. After he gets rested up—well—there will be plenty of time then to think up things that he would like to do.

A basket dinner will be held prior to the afternoon program. Planning the event are Roy Major and Linda and Larry Claycomb, members of Longwood Neighbors 4-H Club.

Marshall Teacher To Talk of Japan

Mrs. Virginia Scott, contemporary issues teacher at Marshall High School will speak on Japan. Life Sunday at Cartwright School. Mrs. Scott spent four years in Japan while her husband, Ed, was in military service, and after his discharge when he became a civilian lawyer. She taught in the International College of Sacred Heart and the Army School in Japan.

A basket dinner will be held prior to the afternoon program. Planning the event are Roy Major and Linda and Larry Claycomb, members of Longwood Neighbors 4-H Club.

Lions Urge Bell-Ringing

A movement is sweeping the country to inaugurate a new national observance of American Independence. It is a proposal for community-wide ringing of bells at a given time on July 4.

Quick to respond to this is the Sedalia Lions club which initiated a resolution to join in and encourage this nation-wide plan as symbolic of freedom and independence. Subsequently this group sponsored adoption of a similar resolution at the Missouri District convention in Kansas City and also proposes to present it for adoption at the International convention in Miami, Fla., in June.

This gesture is typical of the Lions club's primary cooperation in so many fields of community activities.

The bell-ringing project should tend to renew citizen awareness of our heritage of freedom on Independence Day. Any proposal that can accomplish this objective is laudable but, may we say, not easy. To make it succeed much promotion is required.

We know the Lions club will not be remiss in this respect. They understand the meaning of promotion which has made so many of their projects successful.

Although the bell-ringing idea is something new, we wish the Lions or any other group would help revive public interest also in display of the American Flag not only on July 4, but on all other patriotic occasions such as Memorial Day, Flag Day, Labor Day, Veterans' Day and other recognized holidays.

Display of the flag in peace time has well-nigh become a forgotten obligation. Only a bloody war seems to bring desire to unfurl Old Glory.

Undoubtedly the bell-ringing project which the Lions club endorses will bring resurgence of patriotic emotions which have been too impulsive too long.

Let's swell this sentiment on bell-ringing day, July 4, and on other occasions, by displaying the American Flag in front of our homes and business places.

Looking Backward

TWENTY-FIVE YEARS AGO

NEW YORK DAILY NEWS: Anti-Colonialism; Or Is It? — Since World War II, Great Britain has been freeing its one-time colonies as fast as it could.

Since the American Revolution, the United States has opposed colonialism. In recent years, it has frequently put the arm on Britain, France, Portugal, etc., to free their remaining colonies as fast as feasible, if not faster.

The world's most aggressive colonialist nation, Soviet Russia, has now made a colony out of Cuba, 90 miles off Florida.

So-o-o, Britain and the United States are cooperating vigorously in the Caribbean to prevent hit-and-run raids on Cuba by Cuban exiles hoping to free their homeland from colonialist Russia.

In these performances by ex-colonist Britain and the anti-colonialist U. S. A., we seem to smell, to say the least, a slight inconsistency.

Frightening Prospect

Though Adm. George W. Anderson, Chief of Naval Operations, considers sabotage a remote prospect in the loss of the nuclear submarine Thresher, past history works against ruling it out.

It has been disclosed that when our first atomic vessel, the Nautilus, was in Portsmouth naval yard for repairs four years ago, some 235 separate sabotage efforts were made in a two-week period. All involved deliberate cuts in armored, cable-style wiring affecting ship controls.

The FBI failed to turn up the saboteurs, despite hard search. Its quest was similarly fruitless in the case of another nuclear submarine and a guided missile destroyer, both of which suffered sabotage later in 1959.

Whether this kind of thing is the work of conscious foreign agents or simply of dis-

Moon Landing Before World Peace

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — (AP) — While man triumphed beyond the imagination and abilities of his grandfather—in the earth-orbiting of astronaut Gordon Cooper—here below man didn't change much.

President Kennedy called Cooper's feat one of the "victories of the human spirit." Thousands had a part in it. It was a supreme example of how men working together can achieve a dream.

But in the time it took Cooper to orbit 22 times in space, 20th century man on earth was still involved in situations which had not progressed beyond the inclinations and abilities of the men who lived in caves.

They included tyranny, spying, sudden death by executioners, racial prejudice, suspicion, insecurity and man's inability to get along with his neighbors for his own sake.

While Cooper talked to earth from his space ship, President Duvalier, the tyrant of illiterate and poverty-stricken Haiti, was telling newsmen he intended to keep the presidency even though his legal term ended as he talked.

Reason and justice and the will of the people—three other victories which man achieved late and often forgets—are not considerations in Duvalier's lust for power.

In fairness to Duvalier it must be said he is not the only tyrant loose in this century. He's just clumsier than some of the others.

Meanwhile Moscow was reporting that Col. Oleg Penkovsky, convicted of spying for the West after a Soviet trial, was executed in accordance with the findings of the court.

This happened while Britain was accusing an Italian scientist, Dr. Giuseppe E. Martelli, of spying for Russia.

The spying the West does on Russia and Russia on the West is such a normal condition in international relations that it looks abnormal only when discovered. It is almost bad manners to be caught.

Spying—a symbol of nations

disputing of one another—may be considered a morbid manifestation of the law.

Grand Dragon Harangues

Haranguing the cross-burners last Saturday night was Grand Dragon Bob Shelton, who has indirectly caused President Kennedy headaches before. Shelton was a subject of Senate debate early in this administration when JFK appointed Charles Meriwether, Alabama Director of Finance, to be Director of the Export-Import Bank in Washington.

Meriwether was not only a friend of Grand Dragon Shelton, but rewarded Shelton with a \$1,600,000 state tire contract, given to B. F. Goodrich, which the Grand Dragon represented at that time. U. S. Royal was the low bidder, but Meriwether gave the contract to the firm which his friend Shelton represented instead.

Meriwether is still in Washington with the Export-Import Bank, while Bob Shelton is still in Alabama threatening to flog anyone who practices the integrationist ideas Kennedy stands for. Some years ago, the Klan flogged Rev. J. D. Fackler of Tuscaloosa, a white minister who attended a bi-racial meeting. Grand Dragon Shelton announced triumphantly that others would be flogged who followed his example.

Note — Most important precedent of a politically opposite governor meeting a President in his state regardless of an invitation was when Gov. Earl Warren of California, then running against Truman on the Dewey-Warren ticket, went to welcome Harry S. Truman when he entered California in the campaign of 1948. Truman had not invited him, but appreciated Warren's courtesy. Today the two are intimate friends.

In downtown Birmingham, more than 2,000 Negroes had been arrested on the charge of parading and meeting without a permit when they walked peacefully in anti-segregation protests or knelt in prayer.

Yet when the Klan was scheduled to hold a mass meeting of 2,500 in Bessemer, a suburb of Birmingham, the Governor disbanded his 500-man State Highway Police Force which

Wailing Wall

tion of man's insecurity and inability to get along with himself in reasonable fashion.

But it is a safe bet that man, now working overtime on the project, will learn how to reach the moon before he learns how to live at peace even though not learning may end in his own an-

nihilation.

In the South, where white citizens still insist on discriminating against Negro citizens by segregation, the racial trouble stayed cool in Birmingham, perhaps only because of Kennedy's readiness to use troops.

It boiled elsewhere. In Greens-

boro, N.C., hundreds of Negro students demonstrated against discrimination in a cafeteria and several theaters and went to jail for their trouble.

Since more and more Negroes of the South are showing impatience against discrimination and prejudice, in the end there may be a violence worse than anything in this century.

Reasonable arrangements there might avert disaster but reason is working grudgingly.

One thing is sure: Cooper saw more peace in space, where there was no one but himself, than he ever saw below.

DEAR POLLY — My tip is for the men. (We must stick together, you know!) Whenever I go out on a date with my gal, I always carry a little plastic pill container filled with cold cream. Lipstick comes off easily with no telltale marks. Result: no more teasing from the family.—BILL

Watch out, Bill, or that girl of yours is going to think you're pretty sure of yourself if she ever finds out that you come prepared.

DEAR POLLY — To restore elasticized waistbands of various garments, thread a large needle having an eye big enough to accommodate the very narrow elastic available at the dime store by the yard. Sew right through the worn elastic, using whatever length of the narrow elastic is comfortable for you. This prolongs the life of the garment and makes the waist fit as well as when new.

ribbon, perhaps a shade darker than the wall color, and run it from a spot on the wall just above the top of a table or chest of drawers to the ceiling. Fasten with tape or glue at the top and bottom. Then pin up pictures of your favorite movie stars, basketball players and other things.

—CLAUDIA

GIRLS — I think Claudia has a very good and decorative solution to a problem common to young people who do like their possessions on display. Mothers will like this, at it eliminates holes in the walls.—POLLY

Ann Landers

Answers Your Problems

Dear Ann Landers: I have wanted to write to you on other occasions when I've disagreed with your advice, but somehow I never got around to it. A recent column, however, was so stupid I can't put off writing any longer. I mean your insipid reply to the woman whose nutty husband locked up his personal belongings every night.

You told the wife to phone her doctor and he would "take it from there." It is obvious, Ann Landers, that you are not married to a doctor. Well, I am, and if he got a call like that my husband would think the woman was nutty and perhaps her husband knew what he was doing.

Too many screwballs in the world are already phoning their doctors at all hours of the day and night to chat about ridiculous things and now YOU come along and encourage it!

Why didn't you print YOUR husband's business telephone number and tell the crazy woman to call HIM?—AMAZED AT YOUR IGNORANCE.

Dear Amazed: I did not suggest that the woman phone her doctor at home and discuss the problem.

I DID suggest that a husband who locks up his car keys, credit cards, loose change and cuff links, every night and pins the key in his pajama pocket, needs professional help. This is what I meant by "have a talk with your doctor and he will take it from there."

Dear Ann Landers: As the executive director of a home for unwed mothers I was interested in the letter from R.D., the woman who rejoiced that her 13-year-old daughter was going steady. She was in error beginning with her first sentence. The woman wrote: "I am a mother." She is a female baby sitter—and a poor one. A mother should have a measure of maturity. Referring to her 13-year-old daughter, she said, "It's a sad sight to see this child, teary-eyed and fretting, waiting for the telephone to ring."

Ask her, Ann, if she thinks it is pleasant to see a 13-year-old girl sitting teary-eyed and fretting—pregnant in a maternity home. We get some youngsters who are 11 years of age. I have seen them and I know what I'm talking about. These girls often tell us that going steady was the cause.

R.D. says things are different than when she was a girl. There she is right, Ann. Things ARE different. The unwed pregnancy rate is more than 300 per cent higher. Five years ago we had empty beds. We added a unit recently and still we have room for only one out of four applicants. Many of the girls who come to us tell us Ann Landers sent them.

Please keep hammering away in your column about the dangers of going steady. From where I sit, things don't look good.—D.P. OF FAIRHAVEN HOME.

Dear D.P.: Thank you for your letter. Many teenagers are unhappy with me because of my firm and relentless stand against going steady. I intend to keep hammering away on this subject until my typewriter falls apart.

Dear Ann Landers: Most people get into trouble when they are awake. Not me. My problems begin when I fall asleep. I talk all night long—according to my husband.

He tells me I speak lovingly of every fellow I ever went with—except HIM that is. I even get mushy about the office manager whom I thoroughly dislike. Some

WASHINGTON (AP) — In the news from Washington:
EXILES: A Senate Judiciary subcommittee plans hearings next week on the administration's policy toward Cuban refugees who have fled to the United States.

The spotlight will be on the exile community in Miami when two days of hearings open Wednesday with questioning of Edwin Martin, assistant secretary of state for inter-American affairs.

"Disassociation from Miro Carodona's Revolutionary Council and the prevention of further raids indicate an obvious change in our policy toward the exile community," Chairman Philip A. Hart, D. Mich., said Thursday.

"Secretary Martin should be able to clarify the situation for us," Hart added.

SMALL BUSINESS: President Kennedy says his tax proposal would be especially beneficial to small business.

Speaking Thursday at the White

House to the National Small Business Advisory Council, Kennedy said small business should be improved and expanded.

He added that he doesn't "want control of the economy in the hands of government or large groups."

NOT IN ORBIT: Asst. Senate Democratic Leader Hubert H. Humphrey wishes the Senate could learn a lesson from astronaut Gordon Cooper.

"Maj. Cooper goes around the earth every 88 minutes and it takes us longer than that to dispose of one amendment in this debate," the Minnesota told his colleagues Thursday.

He spoke amid Senate consideration of the administration's feed grains bill.

Wheat Earnings Discussed By Sen. Symington

WASHINGTON (AP) — Secretary of Labor Willard Wirtz says the nation's jobless rate "obviously is much too high."

Wirtz, attending the AFL-CIO's Executive Council meeting, said, however, that there have been increases in employment during the last two months.

He said changes in the unemployment insurance program recommended by President Kennedy are vital in helping to deal with the unemployment problem.

"Benefits under the current unemployment insurance program are inadequate," Wirtz told a news conference.

Under the President's plan, unemployment insurance would cover new groups of workers and increase payments to qualified workers who are unemployed, Wirtz said.

He predicted that the long dispute between the nation's railroads and their union employees over the lines' intention to eliminate what the railroads consider featherbedding will be settled without a strike.

Missouri Senators For Grain Measure

WASHINGTON (AP) — Voting on the administration's feed grains bill, passed by the Senate 45-35 Thursday, included:

Missouri—Stuart Symington and Edward V. Long, Democrats, for; Kansas—Frank Carlson and James B. Pearson, Republicans, against.

Oklahoma—Mike Monroney and J. Howard Edmondson, Democrats, for.

Arkansas—John L. McClellan, Democrat, for; and J. Fulbright, Democrat, paired for.

Former Investigator In Illegal Practice

KANSAS CITY (AP) — Jack L. Anderson, former chief investigator for the Jackson County prosecutor, has been charged with illegally practicing law.

He is accused in three grand jury indictments with soliciting fees from municipal court defendants to arrange settlements of their cases. The charge is a misdemeanor.

He tells me I speak lovingly of every fellow I ever went with—except HIM that is. I even get mushy about the office manager whom I thoroughly dislike. Some

Gilliam Leads

Dodgers Blank
Pittsburg 1-0

By MIKE RATHETT

Associated Press Sports Writer

For a guy without a store, Jim Gilliam is really giving everyone the business.

Gilliam, a sure-fingered infielder who loses his job every spring but winds up behind the counter once the rush season starts, scored the game's only run as Los Angeles Dodgers edged Pittsburgh 1-0 Thursday night and moved into second place in the National League.

Conditions
For Fishing
Not to Good

JEFFERSON CITY (AP) — Northern and Western Missouri streams are muddy and fishing conditions not too good.

The Missouri Conservation Commission Thursday issued this report of conditions:

Grand, Nodaway, Platte and 102 rivers—Flooding, fishing poor. Sale, Cuivre, Fox and Fabius—Muddy.

Osage—Above Lake of Ozarks muddy with catfish, drum and crappie fair on live bait.

Sac and South Grand—Muddy, but yielding fair catches of catfish, crappie and drum.

MU Nears
Big Eight
Ball Crown

By THE ASSOCIATED PRESS

Missouri is only two victories away from another Big Eight baseball championship, but the Tigers must win them from Kansas, only conference team to beat them twice last season.

Rain is forecast for today's single game and fair skies for Saturday's season-ending doubleheader in Columbia.

Rain likely would work against second-place Oklahoma, which closes against last-place Iowa State at Ames with a doubleheader today and a single game Saturday. Rained-out games are not rescheduled under Big Eight rules.

Missouri has a 15-2 won-lost record, taking two of three from both Oklahoma State and Oklahoma and sweeping the others. Oklahoma stands 12-3. Missouri could lose once and still take the crown because it has had two fewer games rained out than Oklahoma.

Kansas, third at 10-6, has excellent pitching. But Floyd Temple's club has a team batting mark of only .240 compared to Missouri's .300-plus. The Tigers again will be without lefthander Jack Stroud, but Keith Weber has proved just as good if not better in his place.

Hi Simmons will be shooting for his ninth Big Eight baseball title in 24 years at Missouri.

Colorado, 8-7, could finish ahead of Kansas by sweeping three from Kansas State. 4-13, at Boulder.

The Buffs have lost only once in nine league games. But K-State has shown great improvement the past two weeks.

Oklahoma State, 9-9, also shooting for third place, faces Nebraska, 5-12, at Stillwater. In both these series, doubleheaders are set for today and single games Saturday.

Order Sid Luft
To Pay Support
For His Child

LOS ANGELES (AP) — Former producer Sid Luft, who claims he is living on borrowed money, must pay \$300 in monthly child support to his ex-wife, actress Lynn Bari.

Superior Court Thursday ordered Luft to make the payments for six months, at which time a new hearing will be held to examine Luft's financial situation.

All persons interested are notified that such court, at the times and as provided by law, will determine the persons who are the successors in interest to the personal and real property of the decedent and of the extent and character of their interests therein.

Miss Bari, 42, appealed for an increase in child support for her 14-year-old son, John. The actress was divorced from Luft in 1950 and won custody of the boy in 1958.

Luft, 46, was originally ordered to pay \$75 a month, plus extra expenses. Miss Bari testified he had made no payments since 1959.

Luft said he had borrowed \$32,000 to promote research development companies.

The actress is married to a Beverly Hills psychiatrist. Luft is now married to actress Judy Garland.

Hearing for 5 Nazis
Behind Closed Doors

LOS ANGELES (AP) — It

made a preliminary hearing for five members of the American Nazi party accused of conspiracy and assault is being conducted behind closed doors.

The attorney for one defendant asked that the public and the press be barred because, he said, only the prosecution's side is given at a preliminary hearing.

He said he feared publication of the proceedings would prejudice the public from which a jury would be drawn.

The court agreed. The five, all men in their twenties, were picketing an observance of the 15th anniversary of Israel April 28 when a riot started.

Old Polar Palace
Damaged By Blaze

HOLLYWOOD — (AP) — Ice skaters around the world knew the old Polar Palace, it was a Hollywood landmark.

Workmen finished remodeling it recently. The Pacific skating championships were to have been held there at the end of the year.

But early Thursday, a fire broke out in its coffee shop. It blazed through the structure, threatening a movie sound stage next door.

Sixteen fire companies battled the flames. They didn't have much luck. The building was gutted. Firemen estimated the loss at \$300,000.

TO HEAD FCC — E. William Henry smiles after President Kennedy named him to be chairman of the Federal Communications Commission May 14 in Washington. Henry, 34, a native of Memphis, Tenn., has been a member of the commission since last August. He was named after the White House announced the President had accepted the resignation of Chairman Newton Minow.

Allen, Betty To Exchange Vows in June

By CYNTHIA LOWRY

AP Television-Radio Writer

NEW YORK (AP) — Actress Betty White, much in demand as a panelist in various and assorted games shows, and Allen Ludden, host on CBS' "Password," are planning to be married in Las Vegas on June 14.

Apparently romance finally bloomed on a panel show—but in truth "Password" had little or nothing to do with it.

Betty, a busy and dedicated bachelor girl from Los Angeles, actually met Allen for the first time well over a year ago when she was a guest celebrity on his show.

"But I didn't see her after that," explained the bespectacled master of games. "It really happened last summer when our respective agents got together and booked us to play in 'Critics Choice.'"

Their first date came when "Password" was originating briefly in Hollywood. Allen and Betty, chaperoned by their agents, had a business dinner together—and then attended a performance of "Critic's Choice."

"Strictly to catch the show, at least at the beginning," added Ludden.

Betty and Allen, after a weekend honeymoon, plunge right in a busy season of summer theatre. They'll play together in a straw

TV In Sight! A BOON TO TV DRAMA

Don't recognize him? It's Richard Boone without his Paladin mustache. That's how you'll see him on NBC-TV on Tuesday, September 24, when the new "Richard Boone Show" debuts. It's television's first regular repertory company of a dozen or more top actors, headed by Boone. They'll present a different drama or comedy every week.

hat version of "Brigadoon" (Allen Ludden sings "Yes," said Betty, "and very nicely, too.") Betty will be busily filling commitments she made months ago before the made months ago, before the air, including a period starring in "The King and I" in St. Louis.

Allen is a widower with three children—two girls and a boy. Betty's home is in Brentwood with her parents.

They expect to make their home a big rambling house in suburban Westchester County, where Allen is a dedicated gardener and amateur cabinetmaker.

By now, all the romantic-minded ladies in "Password's" big day-time audience are firmly convinced that Ludden's daily "Hi, Doll," made as he walks before the camera is addressed to the pretty, blue-eyed lady who wears his solitaire.

Sad to relate, it isn't. Allen started it a couple of months ago,

an airy address to the ailing mother of a friend who, he knew, watched the program daily. Now he feels it is a personalized greeting to all the ladies of all ages in his audience. And, besides, it has become identified with him.

Merv Griffin, after a long, leisurely vacation abroad with wife Julian, returns home this weekend to prepare for his summer job as host on CBS' "Talent Scouts"—but will be on television Monday night, playing "To Tell the Truth." Circle Theatre's dramatized documentary on May 22 (CBS) will be very close to the headlines: Real estate swindles.

TV Medical Themes Raise Doctor Visits

GENEVA (AP) — Television serials with medical themes are causing people to visit their doctors more often, the World Health Organization says.

"The relatively rapid sophistication of many communities in medical matters is due in part at least to radio and television," said a WHO report today. "This is producing an increased demand for early diagnosis and preventive medicine."

If you live on a busy street and are bothered by intermittent dashes on your TV screen, you might pin the trouble on the passing traffic. The sparking of plugs and distributor points makes for good performance in a car, but not in TV sets.

Locating the antenna as far as possible from the street will reduce this interference and, it's a good idea to hang antenna wire vertically rather than horizontally, as this too tends to lessen the problem. Metal-shielded wire is somewhat more costly than the plastic-coated type, but here is still another reduction of the interference problem.

Incidentally, if your problem is one of getting a good new set to replace the tired old one, you have no problem at all. Merely drop in for a full demonstration of Sylvania and Muntz television at TED'S RADIO & TV SERVICE. Cost? Prices start low at TED'S RADIO & TV SERVICE, 810½ W. 16th Street, Phone Days, TA 6-7044, Nights, TA 6-2656 or TA 6-7011.

THIS WEEK'S HOUSEHOLD HINT. Try placing a half lemon on a refrigerator shelf to soak up odors.

Cooper Completes 22-Orbit Journey

May Try 3-Day Flight

As Next Step for US In Space Program; Speculation High

CAPE CANAVERAL, Fla. (AP) — Gordon Cooper's easy-going space marathon left a wake of speculation Thursday that another American might brave a three-day stint in space before the end of the year.

But space agency officials were guard about the possibility of an encore Mercury flight. They said it might take several weeks to analyze Cooper's journey and see if another is needed.

Their reticence may be due to an unposed question: Did Cooper's fear of nonchalance impress an economy-minded Congress, where many members want to cut substantial amounts from the proposed \$5.7-billion space budget.

There is no question that much of the equipment to outfit a space craft for a 72-hour flight is already available, some of it since the beginning of the year.

Space officials acknowledge that Cooper's backup space craft could be modified for the flight.

But, perhaps with a weather eye on Congress, they were guarded about this, too.

They said they were not sure just what additional equipment would be needed.

Aside from this, has the Project Mercury capsule proved itself to a point where it can be used routinely for scientific experiments.

Although the experiments are important, says D. Brainerd Holmes, director of manned space flight, they are not the prime consideration in the program.

He has said repeatedly that the United States is embarked on a step-by-step engineering development to probe the capability of man and equipment in space. In his view, the current shots lead directly to the Gemini two-man space flights and from there to the Apollo project and the moon.

One reason speculation has centered on a possible new man-shoot this year is that the Gemini has slipped. It will be some time next year before a man takes a careful leap from Cape Canaveral to an Atlantic landing in a Gemini spacecraft.

Application for Bank From Joplin Received

WASHINGTON (AP) — The office of the comptroller of the currency reported Thursday receipt of an application for authority to organize a new bank in Joplin, Mo.

Officials described the application as a preliminary one which gave few details other than the proposed bank would be in the southeastern section of Joplin. Its capitalization, name, and other details will be supplied when the application is investigated.

Stewart P. O. Box 1274, Joplin, was listed as correspondent for the organizers.

Business More Normal

Tension Eases In Birmingham

BIRMINGHAM, Ala. (AP) — Tension eased in this racially disturbed steel city Thursday. Business life in the downtown district appeared to be returning to normal, although there were reports of a white boycott.

A spot check of some of the downtown department stores showed business was running from good to subnormal.

Police Chief Jamie Moore said there were no unusual incidents overnight. Scattered reports of window smashing and minor scuffles between Negroes and white persons had plagued the city since Sunday, when thousands of angry Negroes rioted.

Moore said his 450-man force is still on a seven-day weekly basis, but officers were not being held overtime as has been the practice since the riot.

Meanwhile, approximately 3,000 soldiers were poised at two military bases within 100 miles of Birmingham. They were ready to enter the city if President Kennedy decides they are needed to keep order.

Okay Feed Grain Plan

Major Farm Plan Victory for JFK

WASHINGTON (AP) — Senate Democrats gave President Kennedy a major farm program victory Thursday night by passing a two-year program of voluntary controls over corn and other live-stock feed grains.

The bill was passed with votes of 42 Democrats and three Republicans. Seven Democrats and 28 Republicans opposed it.

President Kennedy issued a statement saying the bill "gives the farmer freedom to farm at a profit—freedom to plant his allotted acres in accordance with his best judgment—freedom to overplant wheat in good years and underplant in poor years without penalty—and freedom from disastrously low prices."

He said the legislation represents an impressive victory for the American farmer and said it was enacted "over the objection of those seeking to commit him to low prices and a declining income."

In addition, he said, passage of the legislation gives farmers an intelligent basis on which to vote in a nation-wide wheat referendum.

Approval came after the heavy Democratic majority beat back a long series of Republican attempts to amend the measure and send it back to the House.

It is one of the New Frontier proposals for cutting back production and government-owned surpluses of both feed grains and wheat.

The measure is expected to reach President Kennedy's desk for approval before farmers vote next Tuesday in a nationwide referendum on tight controls over planting and marketing of wheat.

Because corn and feed grain growers can get price supports and payments for diverting part of their crops lands in 1964 and 1965, this is expected to add votes for the stiffer wheat controls.

Many farmers grow both wheat and livestock feed grains. One section of the feed grains extension permits interchange of the allotted acres.

Sen. Bourke B. Hickenlooper of Iowa led the battle to tie on an amendment that would send the bill back to the House. He called it a bad bill.

After 16 straight setbacks, the Republicans, in desperation, tied their hopes onto a typographical error. But that move lost 48 to 42, leaving it up to the Senate clerk to correct the error, as is usual in such cases.

Lightning Kills Colt

A nine-day-old colt, owned by George Ream, Cedar Drive, about three and one-half miles northeast of Sedalia, was killed by lightning around 3 p. m. Thursday. Ream said the colt was out in open pasture when it was apparently struck by the bolt.

Medicare Bill Passes The Senate

JEFFERSON CITY (AP) — A bill to set up an expanded medical and hospital care program for the indigent was advanced by the Missouri Senate Thursday after a long wrangle.

Welfare Director Proctor N. Carter has estimated its cost at about \$4 million in state money and about \$6 million in federal Kerr-Mills funds for the first two years. He has called it a modest approach to the problem.

Sen. Jack C. Jones, D-Carrollton, expressed fear the cost would mushroom in future years.

But Sen. William J. Cason, D-Clinton, handling the bill, pointed out it has a built in safeguard—the welfare director would have to cut payments under the bill to fit the amount of money available.

Currently Missouri provides medical care for its welfare clients only in cases of medical emergencies or acute serious illnesses. The bill would allow an old age assistance recipient or a permanently and totally disabled person to be hospitalized if a doctor certified that was necessary.

A new program of state aid for drugs and dental care would be set up and the amount paid for bedfast patients would be increased from \$100 to \$110 a month. Payments to nursing home patients would be boosted from \$70 to \$80 a month.

Under an amendment pushed through by Jones after more than an hour of debate, none of the money could be used to pay fees of attending physicians.

Council Criticizes Report from Clay

ST. LOUIS (AP) — The executive council of the AFL-CIO criticized the Clay report on foreign aid Thursday and declared that aid should be substantially raised, rather than reduced.

The council is holding its quarterly meeting in St. Louis. It issued a statement saying it "joins completely" in the dissent expressed by AFL-CIO President George Meany. He was a member of the Presidential advisory committee, headed by Gen. Lucius Clay, that recently recommended substantial cuts in the Kennedy Administration's foreign aid program.

The council said foreign aid should not be regarded as a business operation but as a program to promote a free and democratic world.

In Circuit Court \$1,000 bonds were posted for the King brothers and nine other Negro ministers who were found in contempt of court for defying a state injunction against racial demonstrations.

Meanwhile, approximately 3,000 soldiers were poised at two military bases within 100 miles of Birmingham. They were ready to enter the city if President Kennedy decides they are needed to keep order.

TODAY'S WEATHER

Cloudy with chance of few showers Friday morning, partly cloudy and warmer in afternoon, highs 72-78, fair Friday night and Saturday.

The temperature Thursday was 66 at 7 a.m., and 72 at 1 p.m. Low Wednesday night was 64, with .02 of rainfall.

The temperature one year ago today was, high 88, low 67; two years ago, high 70, low 51; three years ago, high 86, low 62.

Lake of the Ozarks stage: 55.8 feet; 4.2 below full reservoir; no change.

Orders Program Checked

See Possible Foreign Aid Plan Scandal

WASHINGTON (AP) — The Senate investigations subcommittee is looking into charges of foreign-aid corruption which, if borne out, "would be one of the biggest scandals in the country's history."

This description was given by a subcommittee member Thursday after Chairman John L. McClellan, D-Ark., had announced he had ordered a preliminary check to determine whether full-scale hearings are warranted.

McClellan said the allegations and supporting documents had come from the Khaibar Khan, whom he described as leader of the Bakhtiari tribe of Iran.

"These documents, if corroborated, point to gross corruption and misuse of funds in excess of \$100 million in connection with the administration of United States aid to Iran," McClellan said in a statement.

The press counselor at the Iranian Embassy, Ali Mohammad Sharifian, denounced McClellan's informant and challenged his story.

Sharifian told a reporter the man's real name is Khaibar Guadzian and said he had lost his Iranian citizenship through long residence in the United States. The press aide said the title of khan, meaning head of a tribe, had been abolished by law in Iran in the 1930s.

The speech placed major emphasis on economic expansion. Whether its proposals will provoke a no confidence vote will not be known until Monday, when top position leaders deliver their answers in the House of Commons. The Liberal government lacks a majority in the 265-seat House.

The most controversial issue at the moment — Pearson's acceptance of U.S. nuclear weapons — was referred to only obliquely. The speech said merely that Canada's armed forces "should have available the modern weapons necessary to perform the defensive tasks which Canada has undertaken."

While calling for disarmament and a nuclear test ban, the speech said Canada must remain strong until these objectives are achieved.

The speech called for reduction of trade barriers, but pledged that the government will do everything possible to expand Canada's export trade and to reverse the country's unfavorable balance of payments.

Downward Trend Into Third Day on Board

CHICAGO (AP) — The grain futures market extended its almost general downward trend into a third consecutive day on the Board of Trade Thursday with all contracts of soybeans, rye and new crop wheat declining a cent or more a bushel.

Corn and oats eased mostly minor fractions. The expiring May wheat contract was in fairly good demand on short covering and ended well ahead.

Three of the four new crop wheat contracts traded at season lows as speculators seemed to prefer outright liquidation. Demand was thin even at the setbacks and prices closed at or near the lows of the day.

Reports of additional rainfall in parts of the major producing area again were bearish factors in the soybean pit.

Wheat closed 1½ cents a bushel higher to 1½ lower, May \$2.05½; corn 1½ lower, May \$1.20½; oats 1½ lower, May 69½ cents; rye 1½ lower, May \$1.26½; soybeans 1½ lower, May \$2.60-60½.

Thieves Strike Again

KANSAS CITY (AP) — Thieves have struck again at the Supreme Council of the House of Jacob. They took some Bibles, the second time in recent months the non-denominational church had been burglarized. Bibles also were taken in the first entry.

Obed Hines, senior deacon of the church, said he hoped the thieves would make good use of the books, adding that if they did that "I wouldn't really be grudge the loss."

Churchill Shows Again

LONDON (AP) — Sir Winston Churchill appeared in the House of Commons Thursday for the third straight day. A ripple of applause greeted his arrival. Smiling and looking fit, he spent nearly 90 minutes at the session.

NEW COMMANDER — Major General J. J. Preston will become commander of the 17th Aerospace Division at White-man Air Force base effective Aug. 1, replacing Brig. Gen. Robert Strauss. Gen. Preston is currently assigned to Vandenberg Air Force base, Calif. Gen. Strauss is moving to a command position at Lockbourne Air Force base, Ohio.

Legislature Goes Home For Weekend

Even Busier Times Are Seen for Next Six Weeks in Mo.

JEFFERSON CITY (AP) — The Missouri Legislature went home for the weekend Thursday after a busy week and a portent of even busier times in the next six weeks.

House Majority Floor Leader James G. Trimble, D-Clay County, warned the days would be longer in the future. He announced the House will convene Monday at 2 p. m. instead of 4 p. m. and there is a likelihood of night sessions during the week.

But the House probably won't hold a night session Tuesday. That's when the House Constitutional Amendments Committee will hear both sides on the red-hot school transportation proposal.

The committee has vowed to come up with a decision on the move to provide the same school transportation for parochial and private school students as public school students.

The issue to be argued is the proposed constitutional amendment offered by Rep. Thomas A. Walsh, D-St. Louis, to make transportation of school youngsters a matter of state welfare.

Even if it gets through the House and Senate it still would require approval by the voters.

The Senate, too, is expected to step up the pace of activity with night sessions probably in the offing. The Senate calendar is in much better shape than the House calendar, however.

At Smith-Cotton

Rev. Odell Will Deliver Baccalaureate Address

Rev. Garner S. Odell, pastor of the Broadway Presbyterian Church, will deliver the address at the baccalaureate service which will be held at the Smith-Cotton High School auditorium at 2 p. m. Sunday. His sermon topic will be "Three Great Choices."

The service will open with the procession, "Cornelius Festival March" by the high school orchestra, followed by the scripture reading by Rev. Roger Fjeld, pastor of Christ Lutheran Church.

The mixed chorus will sing "Heavenly Light" by Wilhousky, with prayer by Rev. George Sparling, pastor of Wesley Methodist Church. Choral response will be by the mixed chorus.

Following the sermon by the Rev. Mr. Odell, Kay Rotermund will sing, "All in the April Evening."

Rev. Harry Purviance, pastor of the First Christian Church, will give the benediction, after which will be the choral response by the mixed chorus and the recessional "Pomp and Circumstance" Edgar Elgar, by the high school orchestra.

The candle service will be held at 3:20 p. m. Monday, under the direction of Miss Mila Swearingen.

Opening with the "Call to Colors" by Bill Brown, and the processional, "Festival March"

The candle service will be held at 3:20 p. m. Monday, under the direction of Miss Mila Swearingen.

Comes Back Safe, Sound and Happy

ABOARD THE USS KEARSARGE (P) — Gordon Cooper brilliantly overcame an electrical failure Thursday and brought his trusty Faith 7 in after 22 orbits for the most perfect space shot yet.

Cooper was only 1½ minutes off schedule when he hit the water at 6:24½ p. m. ESI. By 7:11 p. m. he was on this rescue ship and, despite his long ordeal, walked briskly across the deck on his own power.

Sailors had nailed down a red canvas so that Cooper would have the next best thing to the red carpet treatment.

"Gordo is in fine shape," his medical experts said.

President Kennedy was one of the first to get in his congratulations.

"That was a great flight," the President telephoned Cooper.

And Kennedy told the U.S. public in a special television talk: "Peace has her victories as well as war, and this was one of the victories for the human spirit today."

The President also called Trudy Cooper, the astronaut's wife, in Houston, Tex., and invited the Coopers to the White House Monday.

It was a great night in Tecumseh, Okla. The astronaut's mother, Hattie Cooper, had a perfect present for her 63rd birthday.

The U.S. Senate, finally finding something it could agree on, quickly passed a resolution congratulating Cooper.

All in all, it was a brilliant journey.

Mother Merits a Rest

For Mother's Day tell her to get a load off her feet, because the average mother walks seven and a half miles a day.

She does not need to join the Kennedy hikers, she already belongs.

An experiment recently made in Vancouver, B.C. provided a housewife with a pedometer, to measure the distance she walked on her normal schedule.

Her day started at 7:30 A.M. when she prepared breakfast for her husband and children. She did the dishes, made the beds and drove the children to nursery school. When she returned, she straightened the house, and washed three loads of laundry in the basement. She also went next door to water the neighbor's plants.

After picking up the children at noon, she made lunch, vacuumed

some floors and cleaned some windows. Then came the evening meal for the family, more dishes and a final trip to the basement. The day ended with baths and eventually bed. Her total walking distance was seven and a half miles.

Of course this mother was off her feet when driving to and from school and eating the meals she prepared, but this is a fair sample of a housewife's day. She may not wash windows on the day she does the laundry — nor vacuum the floors on that day — but she is pretty much on the go from dawn until dark.

The nicest gift for Mother would be breakfast in bed, and being taken out to dinner and a chance to sit down.

She wouldn't even need a rocking chair.

Looking Backward

TWENTY-FIVE YEARS AGO

DALLAS MORNING NEWS: British Tourism. — Some Britons complain of the image of their country painted in travel ads placed in the United States. With their scenes in color of the changing of the guard at Buckingham Palace, of white-washed, thatched-covered cottages, quaint village streets and other tourist come-ons, these appeals are said to portray the land as one inhabited mainly by peasants.

An effective answer is furnished which reports that American tourists last year spent 218 million dollars, the source of Britain's biggest dollar earnings. This topped the combined foreign-exchange earnings of Britain's aircraft and motor-car exports. To be thought of as squares by foreigners may be annoying, but it is a modest price to pay for such rewarding business.

With a tourist income like that, the image, regardless of complaints, is lucrative. Truth is, the quaint villages, the quiet, picture-book countryside of Britain are alluring to those tossed back and forth in the maddening crowds and whose working lives are spent in structures of aluminum and glass.

— 1927 through 1962 — overseas telephone calls have increased from 11,000 calls to 5 million conversations in a single year.

Demands for circuits in the ever-rising tide of communication already are lapping at the floodwater mark of capacity for present equipment. It would seem to call for some out-of-this world solution to the problem being posed for communication engineers.

And that is exactly where the solution lies — out of this world. The development of Telstar, the communications satellite, opens the potential for almost limitless overseas telephonic capacity.

When Telstar's sister satellites begin to circle the earth, they and satellites which will orbit after them are expected to provide the

No Summer Wrinkles

The old rumpled seersucker summer suit is out. Today's summer suit is a crisp combination dacron and cotton. In fact it can now be worn the year round.

Fabrics are constantly being improved upon. The manufacturers now produce materials which make the men as comfortable in all kinds of weather as their women folk. No longer do the men need to look as if they are walking around in sleep-in pajamas.

Now summer suits not only come in seersucker but in blends of dacron, cotton, linen, rayon, Kodil (a fiber mixed with worsted), and Lanella which is a mixture of wool and cotton: suits of all of these fabrics can be put into an automatic washer, hung on a hanger to drip dry — and a man can step into any one of them and look like Mr. Madison Avenue, himself.

Baby Carriages Get More Attention

By DREW PEARSON

WASHINGTON — The Maritime Commission is carefully watching the ocean shipping rates on baby carriages, but not on steel, the flabbergasted joint economic committee of Congress learned the other day.

"We found that the loading of baby carriages in the United Kingdom was fantastically low," testified Otto J. Karse, of the Maritime Commission's division of foreign tariffs.

"So we have spent your great efforts and zeal on the comparative costs of loading and unloading baby carriages and have neglected the question of steel?" asked Sen. Paul Douglas, (D-Ill.), who is chairman of the joint economic committee.

"The baby carriage matter was brought to our attention," explained Karse lamely.

Sen. Douglas, chairman of the committee, was probing the cost of steel in the United States and whether or not the recent steel hike was part of a concerted conspiracy by all the steel companies.

During the course of this probe he was surprised to find that American firms exporting steel pay twice as much for overseas freight as foreign shippers pay to ship steel into the USA — in the same ships and between the same ports.

In other words, shipping rates are stacked against American steel exporters.

"Have you ever thought it was part of your job to see that there was not discrimination against American exports?" asked Senator Douglas.

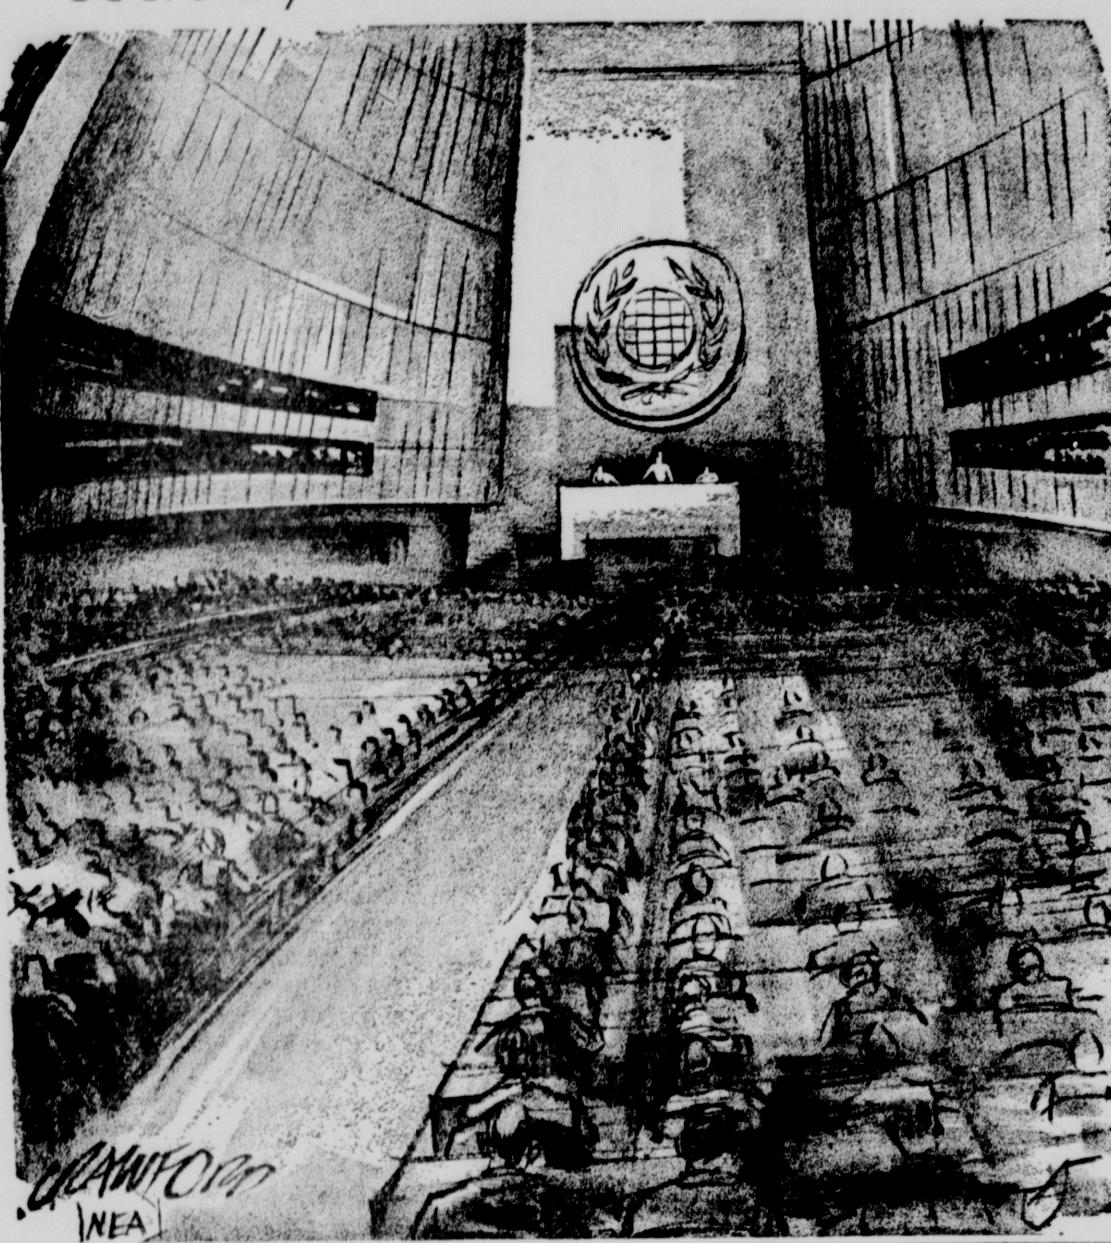

"For some time the Maritime Commission and its predecessor agency has been concerned over this problem. It was brought to their attention by Mr. Celler in his investigation," replied Lloyd Tibbott, now director of the Maritime Commission's office of international affairs.

But William A. Stigler, director of the Bureau of Interior regulation, said the commission was understaffed, had "less than 60 people" to do this work.

"Why that is an army," said chairman Douglas. "This committee has only five, and they are busy on other things. You just have a superabundance of staff."

Stigler then suggested the filing of thou-

Romney Makes Political Hay By Nurturing Grass Roots

By PETER EDSON

WASHINGTON — There may be a long-range political appeal in the line that Gov. George Romney, even before he told them to stop coming to Washington with their problems.

If all these delegates were to start selling a line like this, hard, after they get home, something might come of it by 1968, if not sooner.

"Until such conditions are al-

tered," he declared of the latter, "we are not going to have adequate growth, and we will be headed down the road to disorder and destruction."

More than 1,000 Chamber delegates stood and applauded Romney, even after he told them to stop coming to Washington with their problems.

Dialogue from Washington

By VERA CLAY

The cross-burning, sheet-wearing organization known as the Ku Klux Klan — the anonymous night raiders of another generation — are back in business.

They never really closed shop, entirely. Their grand design: intimidation, violence and prejudice merely has been handed down to new groups with new names who play it cool in tune with the times.

The up-to-date Klansman may turn up in a grey flannel suit instead of a white hood but his presence definitely bodes no good.

Washington sources lay the blame for some of the rioting in racial hotspots squarely on the shoulders of undercover Klansmen who are as treacherous to the welfare of our country as the Black Muslims — the activist group of Negroes who preach out-and-out violence and Mau-Mau techniques.

The Klan definitely is under surveillance by federal officials ... but so are the Black Muslims. The hard-core "nothing but bloodshed" groups are a clear and ever present danger from both sides of the racial barricades.

Though fun-loving Representative Adam Clayton Powell, the Negro Democrat from New York's Harlem, is constantly under the gun for high living and a variety of offenses, he, for once, won approval by scoring his own "black bourgeois" as "Uncle Toms with Harvard accents" who are not taking responsibility for their less fortunate brethren.

"To stop this, we must go to the ultimate source of power in a democracy — the people. If they are not sufficiently informed, don't take the power from them, enlighten them. Save America from federalization."

This is no new line for Romney. It has been the basis of his campaign for reform in Michigan.

He began his crusade with six associates who got together to save the state from what they considered political bankruptcy.

They finally got some 5,000 followers, held a constitutional convention, instituted changes which Romney now is trying to carry out.

He can't complete this job in one two-year term. He needs at least four years, maybe six. By that time it should be apparent whether his drive for good state government — to take over more of the job from bad federal government — makes sense and has the makings of a national political crusade.

Romney's performance in Washington was appraised as having a lot more to commend it than the recent capital appearances of New York's Gov. Nelson Rockefeller and former Vice President Richard M. Nixon or even the long-play records of Arizona Sen. Barry Goldwater, criticizing almost everything and everybody.

Romney didn't mention Cuba or communism, Laos or Latin America, Khrushchev or Kennedy. He spoke on subjects closer to his heart at this time.

Romney assailed attempts by the Department of Health, Educa-

tion, Welfare to dictate relief policies to his state. He condemned big business-big labor massive collective bargaining which fosters monopoly in violation of the anti-trust laws.

What Romney is advocating is a "citizens" political party, directed, controlled and financed by citizens, and not limited to the views of business or labor or any other special interest group."

This is nothing that is likely to spring up overnight and sweep the businessman-turned-politician into the Republican presidential nomination in 1964. Romney insists in fact, that he is not even a candidate. Until he changes his mind, he must be taken at his word.

Also, it does not take a political seer to predict that the odds now favor re-election of President Kennedy next year. Any Republican who runs against him is therefore just a brave man likely to take a licking.

If the situation does develop this way, the smart Republican with presidential ambitions is the one who plays coy in 1964 and builds himself up as Mr. Available for 1968.

By that time the Kennedy administration may have made so many mistakes that everyone will be sick and tired of the New Frontiersmen.

Then it will be high time for a change to some backwoods boy preaching the simple virtues of good but less government.

"We definitely must mobilize those who are not advocates or beneficiaries of nationalized government," Romney told the attentive Chamber delegates. "We do not want the federal government to dry up state, local or individual responsibility."

FINDING THE WAY

Guard Your Children

children, we say 'Our Father.' You see, God is like your own loving father. We talk with Him as loving children talk with their parents."

The minister is shocked. Two of the children in that Sunday school class are from the family that stood in the rain the night before, while a father cursed and waved a knife.

Act I

The action is similar to the ancient melodramas. There is a family of seven children, their faithful, hard-working mother, and their alcoholic father who has just driven the family into the rain.

The children are standing on the neighbor's porch. The distract- ed mother has just called the pastor of their church, since the police refuse to come at once. The officers have responded frequently but, since the mother has refused to file charges, the over-worked police say that they will be there later.

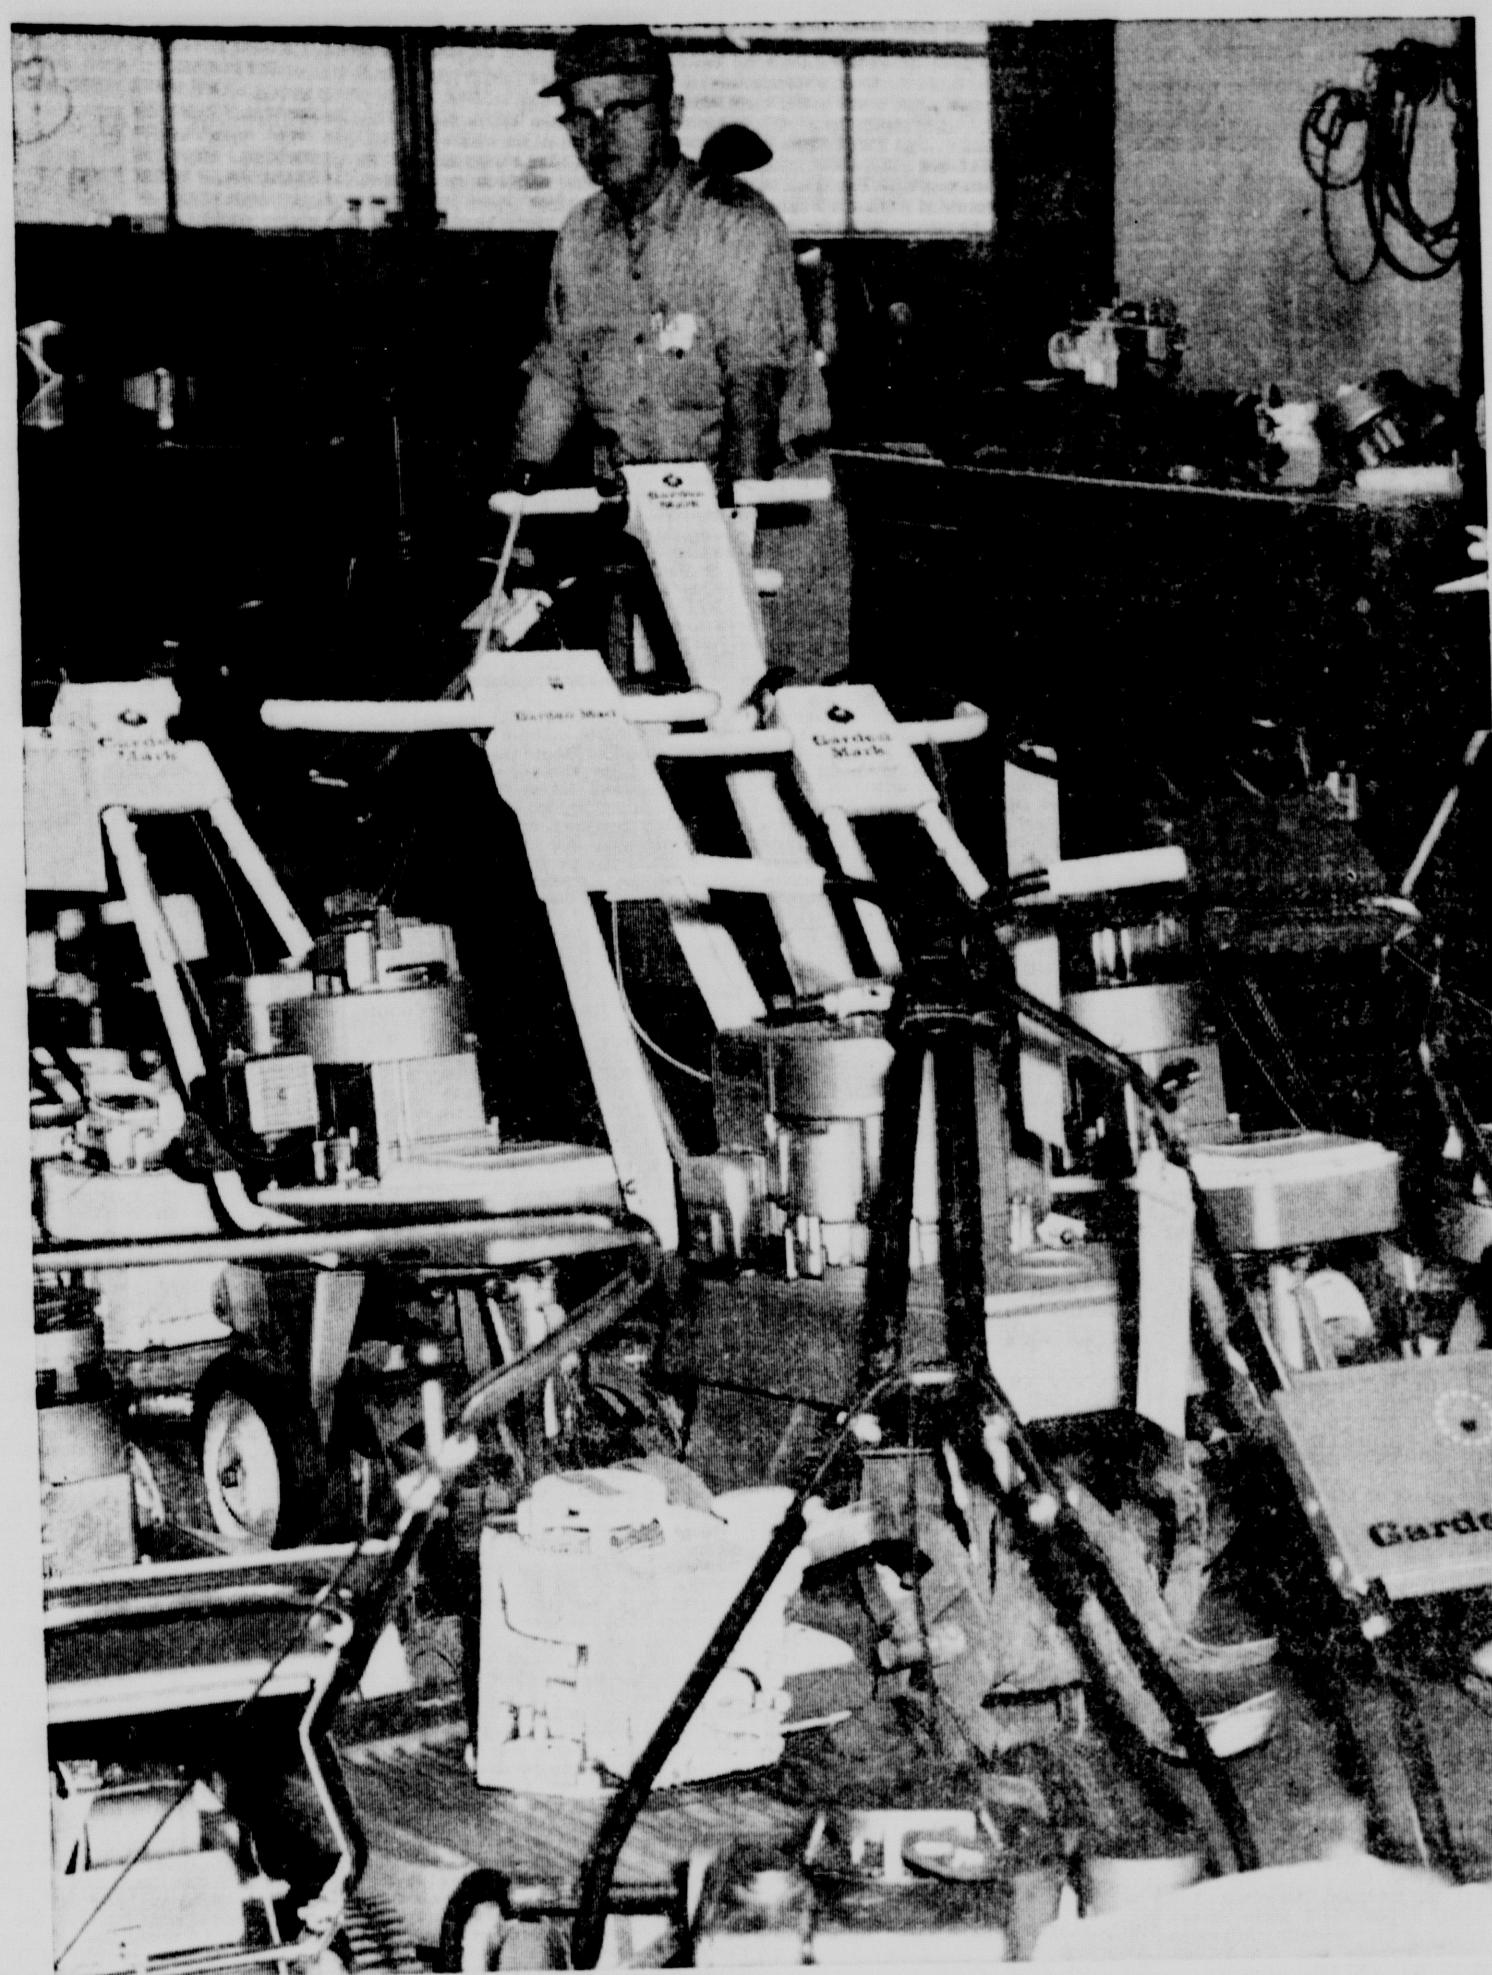

The minister arrives, and suc- cedes in getting the father into the bedroom where he falls in a stupor. The children and the mother are brought back into the house. Within an hour, there is a semblance of order in the home. The minister leaves, since it is Saturday night and he has his congregation to lead in worship and the security of love.

Meanwhile, the expression of faith requires great risks as ideas too great for words are conveyed in symbols which are too limited.

That fact alone brings new humility and dedication to parents who must break through their self-centered dimensions until they become the mirrors of the godly. For they will still teach their children to pray. 'Our Father.'

Act II

It is Sunday morning. The minister walks through the corridors of the church building, listening to the teaching of the trained Sunday school volunteers, who give of their energy to influence a child.

WORK AHEAD — Charles Mounter, 114 South Prospect, a repairman in the Montgomery Ward & Co. service department, has a big job ahead, getting this array of power mowers back in service. Most

of the machines suffer from malfunctions brought about by failing to drain all gasoline out of the carburetor and sediment bowls before they were stored for the winter. (Democrat-Capital photos)

BALANCE — Balance of the blade is vitally important to a smooth running machine. At the Yeager shop, a blade is checked for proper balance by serviceman Ward Woolard, 1025 East 24th. Both balance and alignment are checked at this point, and if necessary, the blade is ground off at one end to insure smooth operation.

Road Maps of Space Unique In Their Intricate Detail

By JERRY CURRY

ST. LOUIS, Mo. (AP)—Project Mercury men who make the astronauts' road maps already are planning for the moon and Mars.

But first, they want their acordion-shaped world chart to do its job for astronaut Gordon Cooper on his scheduled 22-orbit flight this month. It will show him where he is, how he got there and where he's going.

The United States Air Force's Aeronautical Chart and Information Center here goes deeply into detail on the maps. It utilizes months of high-altitude photography, pinpoints characteristics of the earth's surface, and delves into imaginative devices.

The astronaut map, for example, is similar to battlefield maps GIs used in Korea. But this one reproduces the whole world and can be compactly reduced from its one-yard size into a nine-inch rotating folder which can be handled easily. Its detail is amazing. Each of the map's four folds,

can be good for about 7,200 miles—about 20 minutes' flight time. The maps are scaled one over 52,000,000.

Joseph McKinney, Project Mercury's chart manager, said the astronauts' charts are based primarily on shore line and topographical features. Political boundaries are not used. Only those cities which can be seen from orbital height are marked.

The mapmakers try to anticipate everything from the astronaut's orbital view of the earth. Nothing is left in doubt. Alternate recovery areas are provided on the map for Cooper's flight. They are designed in case of rocket malfunction and clearly illustrate terrain or sea on the spot where he might be forced to land.

"Every fifth orbit, the decision will be made if the flight is to continue," McKinney said of Cooper's mission. "He'll know at all times where he is and, if necessary, where he'll come down."

Now that they've finished the script for Cooper's drama and sent it to the publishers, the space-age cartographers already are working on maps for the nation's next giant steps—conquest of the moon and Mars.

Col. Stebbins W. Griffith, cigar-

chewing commander of the chart center, displays on his office wall large charts of Mars, the moon and the world.

"Mars presents a big problem for us and the navigational experts," he said. "The lunar landing also is a problem—but to a lesser degree."

He motioned to the wall map. "Out there in space there is no north, south, east or west. How do you navigate?"

To get detailed information for space maps, the chart center has staff members at the Lowell Observatory in Berkley, Calif. They take photographs and visual notes

from observations through 24-inch telescopes.

Other details come from the British University of Manchester's Pic du Midi Observatory in the Pyrenees Mountains in southern France. Exceptionally clear air there permits excellent celestial photography.

HOLLYWOOD (AP)—"I look at it this way," said Bob Hope over a 3:30 p.m. breakfast of bacon, toast and marmalade. "I've been on television for 13 years doing the same thing. It's time I had a change."

He was talking about his reasons for undertaking a new dimension. It puts me into a different field, and I think I can do some good there."

Bob Hope Show next season—six

of his regular variety shows, two "book" shows (musicals or comedies with plot), and the rest an anthology which he would host.

During his 13 years of specials, Hope has been defeated in the ratings only once (this season by the upstart "Beverly Hillbillies"). So why would he want to venture into the weekly rat race?

The answer would seem to be connected with Hope's fondness for cool, green cash.

"No, it doesn't make that much difference," he corrected. "I'm doing it mainly for myself—to give me a new challenge, a new dimension. It puts me into a different field, and I think I can do some good there."

He is already wrestling with approaches to his hosting duties.

"A lot of my introductions will be straight," he commented. "I'm trying to get the right formula. I think the way Dick Powell introduced his show was about the best it has been done."

WASHINGTON (AP) — In the news from Washington:

SMALL BUSINESS: President Kennedy said small business should be improved and expanded because, he said, he doesn't want control of the economy in the hands of government or large groups.

Kennedy made the statement in the Rose Garden outside his office as he welcomed members of the National Small Business Advisory Council. The council handed him a statement endorsing the administration's tax cut program.

The President said his tax proposals would be "especially beneficial to small business" because particular rate advantages would be given to companies with small incomes.

CONGRESSIONAL PICKET:

Rep. Charles C. Diggs Jr., D-Mich., joined a picket line outside a Washington office building to protest what the demonstrators called discriminatory practices.

The Congress of Racial Equality set up the picket line against Morris Cafritz, builder and realtor, who owns several office buildings and apartment houses in the area.

Diggs, a Negro, said "I think that it is about time we exposed the biggest bigot in Washington."

NON-ORBITING SENATE: Sen. Hubert H. Humphrey, D-Minn., complained that it takes the Senate longer to act on one amendment than it does for astronaut Gordon Cooper to orbit the earth.

"Maj. Cooper goes around the earth every 88 minutes and it takes us longer than that to dispose of one amendment in this debate," the assistant Democratic leader declared.

The Senate for two days has been voting on a controversial feed grains bill, with Republicans offering amendment after amendment in an attempt to get one adopted and thus force a conference on the bill with the House.

INDIANS WIN ON
Lead-Off Homer

Cleveland (AP) — Max Alvis' lead-off home run in the last of the ninth inning gave Cleveland a 5-4 victory over Chicago Thursday night and dropped the White Sox into second place in the American League.

Chicago's loss, coupled with Boston's 3-0 triumph over the Los Angeles Angels, boosted the Red Sox into first place by .015 points ahead of the White Sox.

Alvis' homer came off reliever Jim Brosnan, former Cincinnati Reds pitcher who had just come in to pitch for the White Sox.

The White Sox had come from behind to tie the score 4-4 in the top of the ninth when Dave Nicholson, who had struck out three times, stroked a bases-loaded single good for two runs.
